

MedicineToday

PEER REVIEWED UPDATES FOR MEDICAL PRACTITIONERS

MEDIA KIT 2024

The most read medical publication for
Australian GPs

Australia's leading journal of diagnosis
and treatment

More than 65 years of editorial excellence ...

Medicine Today (formerly *Modern Medicine*) has been continuously published in Australia since 1957. Australia's only independent, peer reviewed journal of clinical practice, *Medicine Today* is written and refereed by doctors for Australian GPs, specialists and other health professionals.

The editorial content provides authoritative and practical clinical information covering all the major fields of medicine and is commissioned following discussions with members of the Board of Honorary Consultants and other senior consultants. All invited authors hold senior roles in their respective fields of medicine.

The Board of Honorary Consultants: behind the scenes

Having major input into *Medicine Today's* peer review process, commissioning program and author suggestions, the Board of Honorary Consultants has a vital role in maintaining the journal's high editorial standards. The Board comprises more than 50 key specialists and GPs as its members, encompassing all the major fields of medicine. The members meet three times a year in Sydney to discuss editorial and publishing issues related to the journal.

What our peer review process means to you

Providing accuracy, credibility and independence, the peer review process is an indispensable part of *Medicine Today's* editorial process.

Every article published in *Medicine Today* has been rigorously reviewed by a minimum of two specialists in the relevant field of medicine and one GP, who represent our readership.

The reviewers provide instructive comments, suggestions and recommendations on the suitability for publication for each article. Authors receive detailed referee reports requesting revisions and responses to the comments before the articles are accepted for publication.

The result is a consensus on any given topic – meaning you can be sure your product message is delivered in the most credible environment available to reach your target audience.

Every article is a basis for action, providing doctors with the most relevant, insightful and accurate consensus information achievable.

Editorial Content

GP Education

Online CPD Journal Program

Medicine Today provides a comprehensive Online Continuing Professional Development (CPD) Journal Program for GPs. Vocationally registered GPs are required to participate in CPD to maintain their core general practice skills.

Medicine Today's Online CPD Journal Program is accredited by the Royal Australian College of General Practitioners (RACGP) for its Quality Improvement and CPD Program. Hence, doctors vocationally registered with the RACGP can support their professional development needs by participating in *Medicine Today's* CPD program.

Each month, CPD modules based on feature articles published in the current issue of *Medicine Today* are added to the online CPD program. GPs can earn CPD points by completing each CPD module online.

The aims of *Medicine Today's* Online CPD Journal Program are to help GPs to:

- update and review their knowledge of diagnosis and treatment of patients with various conditions
- keep up to date with the use of newer pharmacological agents
- apply their knowledge to clinical cases
- update their knowledge on risk factors, and enhance the practice of preventive medicine
- consider systems-based approaches to enhancing patient safety
- continue developing their skills in communicating with patients
- increase their awareness of psychosocial factors and their relevance in causing and in the course of disease
- increase the application of evidence-based medicine and keep abreast of current data relevant in general practice.

Peer Reviewed Articles

In Brief

Aimed at the busy GP, the 'In Brief' section comprises timely, short news reports of current research.

Feature articles

Peer reviewed articles covering particular areas of general medicine in depth are published in each issue of *Medicine Today*. These commissioned articles provide practical information relevant to GPs in their day-to-day practice.

Regular series

A selection of commissioned, short, peer reviewed articles on specific areas of medicine form the 'Regular series' section of *Medicine Today*.

Regular series include:

- Clinical case review – case studies in general practice
- Complementary medicine update
- Dermatology clinic
- Drug update
- Emergency medicine
- Gastroenterology clinic (in association with the Gastroenterological Society of Australia)
- Infectious diseases clinic
- Medicolegal matters
- Men's health
- Nutrition clinic
- Ophthalmology clinic
- Pain management clinic
- Pathology clinic
- Perspectives in dermoscopy
- Practical procedures
- Psychological medicine
- Rheumatology clinic (in association with the Australian Rheumatology Association)
- Sexual health clinic
- Sports medicine
- Therapeutics clinic
- Travel medicine update
- Women's health

Supplements

We regularly publish collections of peer reviewed articles on specific disease states, funded by sponsorship. The editorial content of these supplements is subjected to *Medicine Today's* usual peer review and editorial processes.

New England Journal of Medicine Journal Watch

Brief, up-to-date summaries of research articles published in major medical journals, provided by the NEJM Group, a division of the Massachusetts Medical Society, comprise the Journal Watch section of *Medicine Today*.

The only group of journals that reaches:

- General Practitioners
- Endocrinologists
- Cardiologists
- Pain Management Specialists
- Dermatologists
- Respiratory Medicine Specialists

With six different titles, producing 23 issues over 12 months, the **Medicine Today Group** brings Australia's healthcare professionals the most comprehensive, independent, peer reviewed clinical coverage available.

For further information, including rates and deadlines, please contact **Prue Anderson** or **Amy Scholefield**
Telephone: 02 9908 8577.

Impact Advertising

Brand Awareness

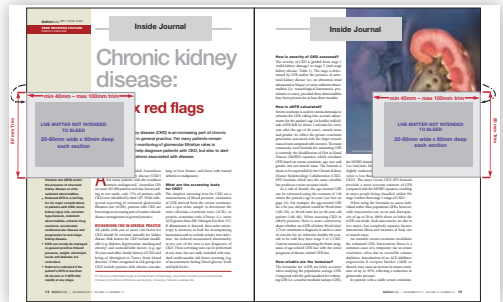

Medicine Today can help you increase brand awareness.

Run of book advertising reinforces your brand message every month.

For extra impact for a launch or a special message, Medicine Today offers you several high-visibility advertising and promotional opportunities to increase brand awareness:

- False front covers
- Belly wraps
- Belly fold
- Front cover gatefolds
- Fixed inserts
- Loose inserts/onserts

Templates available on request.

ADVERTORIAL

Kerenida® (finerenone) listed on the PBS

Kerenida is now available through the PBS to delay the progressive decline of kidney function in adults with chronic kidney disease (CKD) associated with type 2 diabetes (with albuminuria). It is used in addition to standard of care therapy.¹

Kerenida is the first in a new class of medicine known as mineralocorticoid receptor antagonists approved for adults with CKD associated with type 2 diabetes.^{2,3} Overactivation of the mineralocorticoid receptor (MR) may lead to inflammation and fibrosis which is a key driver of CKD. Kerenida targets inflammation and fibrosis mediated by MR overactivation.⁴

CKD is one of the most common complications arising from type 2 diabetes,⁵ and kidney function can decline even when blood glucose is well controlled.^{6,7}

The recommended target dose of Kerenida is 20mg once daily. Kerenida can be initiated at 10 mg or 20 mg once daily depending on the estimated glomerular filtration rate (eGFR). Serum potassium should be <5.8 mmol/L.⁸

Minimum Product Information, Kerenida® (finerenone) ▼ This medicinal product is subject to additional monitoring in Australia. This will allow quick identification of new safety information. Healthcare professionals are asked to report any suspected adverse events at www.tga.gov.au/reporting-problems. **INDICATIONS:** Kerenida is indicated to delay progressive decline of kidney function in adults with chronic kidney disease associated with type 2 diabetes (with albuminuria), in addition to standard of care. **CONTRAINDICATIONS:** Patients taking concomitant medications that are strong CYP3A4 inhibitors (e.g., itraconazole, bosentan, ritonavir, nefazodone, cobicistat, diltiazem, telmivastatin and nefazodone); patients with adrenal insufficiency. **SPECIAL WARNINGS AND PRECAUTIONS:** Hypokalaemia (initiation of Kerenida treatment is not recommended if serum potassium < 5.0 mmol/L); hepatic impairment (avoid use in severe); renal impairment (initiation not recommended in estimated glomerular filtration rate < 30 mL/min/1.73 m²); continue treatment with caution monitoring serum potassium levels in patients with end stage renal disease (eGFR < 15 mL/min/1.73 m²); paediatric patients (not recommended); pregnancy Category D3 and lactation. See full PI for details. **INTERACTIONS WITH OTHER MEDICINES:** Avoid concomitant use with potassium-sparing diuretics (e.g., amiloride, triamterene); other mineralocorticoid receptor antagonists (MRAs) (e.g., eplerenone, spironolactone); strong CYP3A4 inhibitors (e.g., itraconazole, carbamazepine, phenytoin, phenobarbital, St John's Wort) or moderate CYP3A4 inducers (e.g., efavirenz) and grapefruit or grapefruit juice. Use with caution and monitor serum potassium when taken concomitantly with potassium-sparing diuretics, or tricyclic antidepressants; moderate to weak CYP3A4 inhibitors (e.g., moderate erythromycin and azole antifungals); and weak androgens and fluocinolone. See also Contraindications above. See PI for full details. **ADVERSE EFFECTS:** Please refer to PI for a complete list. Very common and common adverse reactions (≥ 1%): dizziness, hypotension, hypokalaemia and glomerular filtration rate decrease. **DOSE AND ADMINISTRATION:** Dose may be affected by eGFR and serum potassium levels. The recommended target dose of Kerenida is 20 mg once daily. The recommended starting dose is 10 mg or 20 mg orally once daily based on eGFR and serum potassium levels. See PI for full details. **BASED ON PI DATED 25 NOV 2021.**

Information in this section is provided by manufacturers or their agents. Any additional information, if required, should be requested from the manufacturers. The full product information and PBS details should be consulted before prescribing any of the medications discussed in this section. Medicine Today bears no responsibility for errors, omissions or inaccuracies.

Advertorial Products & Services News

Advertorial style positions including approximately 150 words plus a pack shot.

Please supply hi-res jpg images, full PI, media release and/or approximate 150-word summary.

Article Reprint Options: available as printed copies and licensed PDFs for electronic distribution

Single Article Reprints

At *Medicine Today*, we know that doctors trust information from authoritative, credible and independent sources and that this influences their opinions and prescribing habits.

Single article reprints are available from all *Medicine Today* titles, including *Cardiology Today*, *Endocrinology Today*, *Pain Management Today* and *Respiratory Medicine Today*.

Distribution: printed copies

Delivery takes 5 to 10 working days from final approval. Reprints are delivered in bulk to clients for their own distribution.

Licensed PDFs

License agreements are available for electronic distribution of article reprints in PDF format.

Advertising

FP advertising is available when space permits. The page count can be increased to include ads, where possible. Sponsor acknowledgement appears on the front cover, in addition to a standard disclaimer at the back.

Pricing: printed copies

Size	1000 copies	2000 copies	5000 copies	10,000 copies
4 Pages	\$8409	\$8701	\$10,331	\$12,529
8 Pages	\$9285	\$10,039	\$13,282	\$18,540
12 Pages	\$13,974	\$15,388	\$21,030	\$28,194
16 Pages	\$15,296	\$16,249	\$22,368	\$29,547

All prices exclude GST and are not media commissionable. Other quantities can be quoted on request.

Reprint collections/Supplements

A *Medicine Today* article reprint collection or supplement builds a collection of articles on a specific topic, giving doctors the chance to gain a comprehensive understanding of that subject and providing you with exclusive advertising rights.

Distribution

Supplements are distributed to the *Medicine Today* readership of approximately 23,000 GPs nationwide, piggy-backing an issue of the journal.

Advertising

Advertising space is made available wherever pagination allows throughout the collection. As a minimum, sponsor acknowledgement is available on the front cover (company name and optional logo) plus FP advertising pages on the inside front cover, inside back cover and outside back cover.

Pricing

Sponsorship costs are based on overall size, i.e. number of pages that make up the document. This will depend on the number of articles included, their individual length and any advertising pages included. Due to the nature of offset printing, pages can only be added in sections of 4. Sponsors can purchase additional copies for their sales representatives, conference events or any other purpose for a nominal fee.

Continuing Professional Development

Medicine Today provides a comprehensive Online Continuing Professional Development (CPD) Journal Program for GPs, accredited by the Royal Australian College of General Practitioners (RACGP) for its Quality Improvement and Continuing Professional Development (QI&CPD) Program. Optional CPD modules as part of a reprint collection start at \$10,000 excluding GST.

- Ad Size
- Special Instruction/Positioning

Electronic File Requirements (High-resolution Acrobat PDF only)

High-resolution PDFs must be supplied with a minimum of **3 mm bleed** and **visible crop marks**. Colour bars, crop marks and registration marks must be at least 5 mm away from trim.

CHECKLIST

Screen

- **Four colour** – 133 lines per inch

Colour

- **Hi-res pdfs** must be supplied in **CMYK**
- **RGB, PMS** and **Spot colours** must be converted to process colour
- **Total ink weight** should not exceed 310% with a 90% black maximum

Images

- **CMYK**
- **JPG or TIFF format**
- Hi-resolution required, **minimum of 300 dpi** at 100% scaling
- Black and white line art, **minimum 1200 dpi** at 100% scaling
- All transparencies must be flattened

Type

- **Postscript fonts** or outline fonts should be used – **Do not use Truetype fonts**
- **All fonts** should be embedded
- **All live copy** must be kept **10 mm from all edges**
- **Any type less than 10 pt bold** is not suitable for reverse printing

- **Body copy text** that is black should be set to 100% black, not a 4 colour makeup of black
- **Solid black background areas** should have an additional **30% of cyan** tint to provide greater density

Note that *Medicine Today* cannot be held responsible for colour discrepancies in print if there are inaccuracies in electronic files supplied to us.

Although the internal production process may verify that the provided material is within specification, the onus is placed firmly on the tradehouse/sender to supply material to specification. It is also a requirement that advertising material is delivered on time so quality control measures can take place. Late material may miss these checking procedures that can pick up possible problems or errors.

Important Notes for Designers of Double Page Spreads (DPS) – Perfect Bound

Medicine Today is perfect bound. Before the cover is adhered, 3 mm is milled from the spine, resulting in a total loss of 6 mm of image across the gutter. There may be a further visual loss of image due to the spine fold. To compensate for these issues and ensure correct alignment of the DPS:

- supply files as two single pages, left and right
- include 3 mm bleed on all edges, including the spine.
- the spine bleed should duplicate the image by 3 mm on both sides of the spine trim to ensure perfect read over. Provision of this extra image also enables us to make adjustments for potential visual loss due to the fold
- avoid breaking words or letters across the gutter
- when headings cross the gutter, increase word spacing by a further 2 to 3 mm at the spine trim to reduce visual loss.
- all live copy should be at least 10 mm from all edges.

Please request our DPS template for more detailed instructions.

Mechanical Specifications continued

Journal Size

Trimmed size is 273 mm deep x 207 mm wide, perfect bound.

Include 3 mm bleed on all edges.

All live copy must be kept at least 10 mm from all edges.

Advertisement Sizes

See list of ad sizes on this page. Other sizes may be available upon application.

* Not available for PI.

** Available for PI only.

† As *Medicine Today* is perfect bound, any material that is to appear across a DPS must be supplied as two single pages, left and right, with 3 mm bleed on all sides, including 3 mm of duplicated image on the binding edge of each page.

See the DPS template on the previous page under 'Mechanical Specifications' or request our detailed template.

†† Available as a nonbleed ad only.
