

MedicineToday

PEER REVIEWED UPDATES FOR MEDICAL PRACTITIONERS

MEDIA KIT 2022

**The most read medical publication for
Australian GPs**

GP Readership & Digital Media 2021 survey

**Australia's leading journal of diagnosis
and treatment**

More than sixty four years of editorial excellence...

Medicine Today (formerly *Modern Medicine*) has been continuously published in Australia since 1957. Australia's only independent, peer reviewed journal of clinical practice, *Medicine Today* is written by doctors for GPs and selected specialists.

The editorial content provides authoritative and practical clinical information covering all the major fields of medicine and is commissioned following discussions with members of the Board of Honorary Consultants and other senior consultants. All invited authors hold senior roles in their respective fields of medicine.

The Board of Honorary Consultants...behind the scenes

Having major input into *Medicine Today's* peer review process, commissioning program and author suggestions, the Board of Honorary Consultants has a vital role in maintaining the journal's high editorial standards. The Board comprises more than 50 key specialists and GPs as its members, encompassing all major fields of medicine. Members meet three times a year in Sydney to discuss editorial and publishing issues related to the journal.

What our peer review process means to you...

Providing accuracy, credibility and independence, the peer review process is an indispensable part of *Medicine Today's* editorial process.

Every article published in *Medicine Today* has been rigorously reviewed by a minimum of two specialists in the relevant field of medicine and one GP, who represents our readership.

The reviewers provide instructive comments, suggestions and recommendations on the suitability for publication for each article. Authors receive detailed referee reports requesting revisions and responses to the comments before articles are accepted for publication.

The result is a consensus on any given topic – meaning you can be sure your product message is delivered in the most credible environment available to reach your target audience.

Every article is a basis for action, providing doctors with the most relevant, insightful and accurate consensus information achievable.

Editorial Content

GP Education

Online CPD Journal Program

Medicine Today provides a comprehensive Online Continuing Professional Development (CPD) Journal Program for GPs. Vocationally registered GPs are required to participate in CPD to maintain their core general practice skills.

Medicine Today's Online CPD Journal Program is accredited by the Royal Australian College of General Practitioners (RACGP) for its Quality Improvement and Continuing Professional Development (QI&CPD) Program. Hence, doctors vocationally registered with the RACGP can support their professional development needs by participating in *Medicine Today's* CPD program.

Each month, CPD modules based on feature articles published in the current issue of *Medicine Today* are added to the online CPD program. GPs can earn CPD points by completing each CPD module online.

The aims of *Medicine Today's* Online CPD Journal Program are to help GPs to:

- update and review their knowledge of diagnosis and treatment of patients with various conditions
- keep up to date with the use of newer pharmacological agents
- apply their knowledge to clinical cases
- update their knowledge on risk factors, and enhance the practice of preventive medicine
- consider systems-based approaches to enhancing patient safety
- continue developing their skills in communicating with patients
- increase their awareness of psychosocial factors and their relevance in causing and in the course of disease
- increase the application of evidence-based medicine and keep abreast of current data relevant in general practice.

Peer Reviewed Articles

In Brief

Aimed at the busy GP, the 'In Brief' section comprises timely short news reports of current research, selected by a GP reviewer.

Feature articles

Peer reviewed articles covering particular areas of general medicine in depth are published in each issue of *Medicine Today*. These commissioned articles provide practical information relevant to GPs in their day-to-day practice.

Regular series

A selection of commissioned, short, peer reviewed articles on specific areas of medicine form the 'Regular series' section of *Medicine Today*.

Regular series include:

- Clinical case review – case studies in general practice
- Complementary medicine update
- Dermatology clinic
- Drug update
- Emergency medicine
- Gastroenterology clinic
(in association with the Digestive Health Foundation and the Gastroenterological Society of Australia)
- Infectious diseases clinic
- Medicolegal matters
- Men's health
- Nutrition clinic
- Ophthalmology clinic
- Pain management clinic
- Pathology clinic
- Perspectives in dermoscopy
- Practical procedures
- Psychological medicine
- Rheumatology clinic
(in association with the Australian Rheumatology Association)
- Sexual health clinic
- Sports medicine
- Therapeutics clinic
- Travel medicine update
- Women's health

Supplements

We regularly publish collections of peer reviewed articles on specific disease states, funded by sponsorship. The editorial content of these supplements and is subjected to *Medicine Today's* usual peer review and editorial processes.

NEJM Journal Watch

Brief, up-to-date summaries of research articles published in major medical journals, provided by the NEJM Group, a division of the Massachusetts Medical Society, comprise the Journal Watch section of *Medicine Today*.

The only group of journals that reach:

- ✓ General Practitioners
- ✓ Cardiologists
- ✓ Dermatologists
- ✓ Endocrinologists
- ✓ Pain Management Specialists
- ✓ Respiratory Medicine Specialists

With six different titles, producing 23 issues over 12 months, the **Medicine Today Group** brings Australia's Healthcare Professionals the most comprehensive, independent, peer reviewed clinical coverage available.

2022 Publication Schedule*

Includes a Pain Management Today section

Includes a Cardiology Today section

Impact Advertising

Brand Awareness

Medicine Today can help you increase brand awareness.

Run of book advertising reinforces your brand message every month.

For extra impact for a launch or a special message, *Medicine Today* offers you several high visibility advertising and promotional opportunities to increase brand awareness:

- False front covers
- Belly wraps
- Belly fold
- Front cover gatefolds
- Fixed inserts
- Loose inserts / onserts

Templates available on request.

ADVERTORIAL

Haemophilia extended half-life treatments now funded via national supply arrangements*

Extended half-life factor replacement therapy for haemophilia A and B (EHL) factor replacement therapy is now funded via national supply arrangements (NSA) for haemophilia A and B (EHL) factor replacement therapy. NSA can be used to fund the purchase of EHL factor replacement therapy (on-demand therapy) or to stop or reduce bleeding that has started (on-demand therapy).^{1,2}

These products are not based on the FES. Please refer to the National Health Authority for details or contact Servell Medical Information 1800 818 806.

Mayzent now available for the treatment of secondary progressive multiple sclerosis

The use of Mayzent for the treatment of adult patients with secondary progressive multiple sclerosis (SPMS) is now recommended by the Pharmaceutical Benefits Advisory Committee (PBAC) as of 1 July 2020 (meeting for adult patients with SPMS who are ambulant (with or without support)).¹

In a large phase III study in SPMS, Mayzent had a significant impact on neurodegenerative measures and helped control inflammatory activity, with a 25% reduction in risk of time to three-month confirmed disability progression (HR: 0.79, 95% CI: 0.65 to 0.95, $P=0.0134$) and a 25% reduction in annualised relapse rate (HR: 0.46, 95% CI: 0.24 to 0.90, $P=0.0205$, nominally significant) compared with placebo.²

With a dual mode of action, Mayzent targets two key pathways (SIRT6 and SIRT7) receptors that are thought to play a role in MS inflammation and neurodegeneration.^{3,4} Unlike other SIRT6/SIRT7 receptor modulators,^{5,6} Mayzent lowers the number of circulating lymphocytes, a key component of peripheral inflammation, while the CNS, Mayzent acts as a selective SIRT6/SIRT7 receptor modulator.^{7,8}

If your patient has SPMS, it's time for Mayzent.⁹

Article Reprint Options: available as printed copies and license PDFs for electronic distribution

Single article reprints

At *Medicine Today* we know that doctors trust information from authoritative, credible and independent sources and that this influences their opinions and prescribing habits.

Single article reprints are available from all *Medicine Today* titles, including *Cardiology Today*, *Endocrinology Today*, *Pain Management Today* and *Respiratory Medicine Today*.

Distribution: printed copies

Delivery takes 5 to 10 working days from final approval. Reprints are delivered in bulk to clients for their own distribution.

Licensed PDFs

License agreements are available for electronic distribution of article reprints in PDF format.

Advertising

FP advertising is available when space permits. The page count can be increased to include ads, where possible. Sponsor acknowledgement appears on the front cover, in addition to a standard disclaimer at the back.

Pricing: printed copies

Size	1000 copies	2000 copies	5000 copies	10,000 copies
4 Pages	\$7297	\$7551	\$8965	\$10,872
8 Pages	\$8058	\$8711	\$11,526	\$16,088
12 Pages	\$12,126	\$13,354	\$18,249	\$24,466
16 Pages	\$13,274	\$14,101	\$19,410	\$25,640

All prices exclude GST and are not media commissionable. Other quantities can be quoted on request.

Reprint collections / Supplements

A *Medicine Today* article reprint collection or supplement builds a collection of articles on a specific topic, giving doctors the chance to gain a comprehensive understanding of that subject and providing you with exclusive advertising rights.

Distribution

Supplements are distributed to the *Medicine Today* readership of approximately 23,000 GPs nationwide, piggy-backing an issue of the journal.

Advertising

Advertising space is made available wherever pagination allows throughout the collection. As a minimum, sponsor acknowledgement is available on the front cover (company name, and optional logo) plus FP advertising pages on the inside front cover, inside back cover and outside back cover.

Pricing

Sponsorship costs are based on overall size, i.e. number of pages that make up the document. This will be dependant on the number of articles included, their individual length and any advertising pages included. Due to the nature of offset printing, pages can only be added in sections of 4. Sponsors can purchase additional copies for their sales reps, conference events or any other purpose for a nominal fee.

Continuing Professional Development

Medicine Today provides a comprehensive Online Continuing Professional Development (CPD) Journal Program for GPs, accredited by the Royal Australian College of General Practitioners (RACGP) for its Quality Improvement and Continuing Professional Development (QI&CPD) Program.

Optional CPD modules as part of a reprint collection start at \$10,000 excluding GST.

Inserts

Fixed inserts

By arrangement. See below for stock weight. Offset cartridge is not acceptable. Artwork in PDF format must be submitted for approval prior to printing. Costs of printing inserts is additional to advertising rate, quotes available on request.

Loose onserts

The maximum trim size of loose onserts is 260 mm x 200 mm. Acceptance of onserts is by prior arrangement, conditional on approval of stock and final copy. All material is to be delivered to the mailing house one week prior to publication date.

Confirm quantities with the Publisher before printing.

Submit samples for approval prior to printing.

Costs of printing inserts is additional to advertising rate, quotes available on request.

Maximum stock weight (all inserts – loose and fixed)

2 pages (single leaf) – 130 gsm

4 pages (two leaves) – 110 gsm

Standard inserts must be printed on flexible paper stock, not board.

For reply paid mailers, use appropriate card stock.

Contract Levels

Advertisers not meeting their specified contract levels will be surcharged.

Trading Terms

Agency commission of 10% is paid to advertising agencies for all accounts settled within 30 days from the end of the month of invoice.

Advertising Standards

Advertisements submitted to *Medicine Today* are subject to editorial approval and have no influence on editorial content or presentation. Advertisers are responsible for ensuring that advertisements comply with Commonwealth and State and Territory laws and any industry code of conduct.

Editorial Policy

Medicine Today is a peer reviewed clinical journal and the editorial content is completely independent of advertising. All editorial material is embargoed before publication.

prueanderson@medicinetoday.com.au
mariamarmora@medicinetoday.com.au
- **Over 15 MB** – please use a file transfer link of your choosing e.g. wetransfer

Material instructions

- Publication Name (*Medicine Today*)
- Issue Date
- Key Number
- Ad Size
- Special Instruction/Positioning

Electronic File Requirements (Hi-res Acrobat PDF only)

Hi-res pdfs must be supplied with a minimum of **3 mm bleed** and **visible crop marks**. Colour bars, crop marks and registration marks must be at least 5 mm away from trim.

CHECKLIST

Screen

- **Four colour** – 133 lines per inch

Colour

- **Hi-res pdfs** must be supplied in **CMYK**
- **RGB, PMS** and **Spot colours** must be converted to process colour
- **Total ink weight** should not exceed 310% with a 90% black maximum

Images

- **CMYK**
- **JPG or TIFF format**
- Hi-resolution required, **minimum of 300 dpi** at 100% scaling
- Black and white line art, **minimum 1200 dpi** at 100% scaling
- All transparencies must be flattened

Type

- **Postscript fonts** or outline fonts should be used – **Do not use Truetype fonts**
- **All fonts** should be embedded
- **All live copy** must be kept **10 mm from all edges**
- **Any type less than 10 pt bold is not suitable for reverse printing**
- **Body copy text** that is black should be set to 100% black, not a 4 colour makeup of black

- **Solid black background areas** should have an additional **30% of cyan tint** to provide greater density

Proofs

- **Supply a 3DAP digital colour proof of the artwork at 100%**

Note that *Medicine Today* cannot be held responsible for colour discrepancies in print if there are inaccuracies in electronic files supplied to us or if an industry standard proof is not provided. If further technical information is required, please visit: www.3dap.com.au

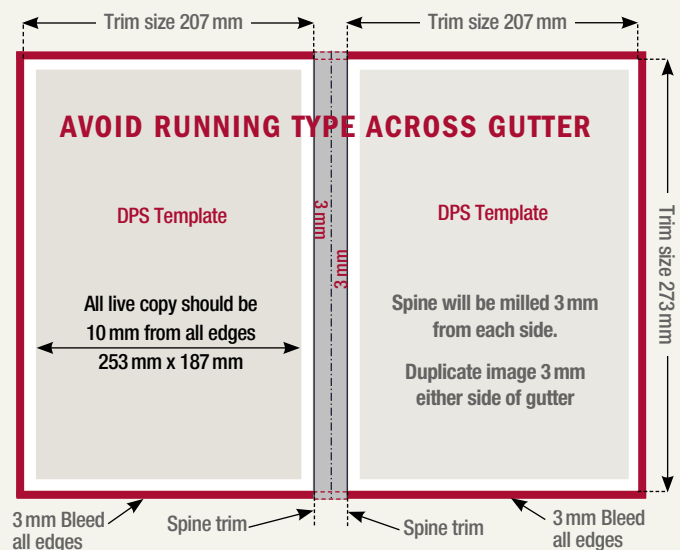

Although the internal production process may verify that the provided material is within specification, the onus is placed firmly on the tradehouse/sender to supply material to specification. It is also a requirement that advertising material is delivered on time so quality control measures can take place. Late material may miss these checking procedures that can pick up possible problems or errors.

Important Notes for Designers of Double Page Spreads (DPS) – Perfect Bound

Medicine Today is perfect bound. Before the cover is adhered, 3 mm is milled from the spine, resulting in a total loss of 6 mm of image across the gutter. There may be a further visual loss of image due to the spine fold. To compensate for these issues and ensure correct alignment of the DPS:

- Supply files as two single pages, left and right.
- Include 3 mm bleed on all edges, including the spine.
- The spine bleed should duplicate the image by 3 mm on both sides of the spine trim to ensure perfect read over. Provision of this extra image also enables us to make adjustments for potential visual loss due to the fold.
- Avoid breaking words or letters across the gutter.
- When headings cross the gutter, increase word spacing by a further 2 to 3 mm at the spine trim to reduce visual loss.
- All live copy should be at least 10 mm from all edges.

Please request our DPS template for more detailed instructions.

Mechanical Specifications continued

Journal Size

Trimmed size is 273 mm deep x 207 mm wide, perfect bound.

Include 3 mm bleed on all edges.

All live copy must be kept at least 10 mm from all edges.

Advertisement Sizes

See list of ad sizes on this page. Other sizes may be available upon application.

* Not available for PI.

** Available for PI only.

† As *Medicine Today* is perfect bound, any material that is to appear across a DPS must be supplied as two single pages, left and right, with 3 mm bleed on all sides, including 3 mm of duplicated image on the binding edge of each page.

See the DPS template on the previous page under ‘Mechanical Specifications’ or request our detailed template.

†† Available as a nonbleed ad only.

Online Advertising Opportunities

Outstanding online advertising opportunities at medicinetoday.com.au

medicinetoday.com.au is designed to entice healthcare professionals to explore the archive and discover the depth and breadth of peer reviewed clinical material available to them.

Make sure your online strategy includes space on Australia's fastest growing online clinical resource for today's doctors and the doctors of tomorrow.

At medicinetoday.com.au all registered users have access to:

- CPD modules for the 2020-2022 triennium
- More than 3000 peer reviewed clinical articles
- More than 50 different medical topics
- More than 100 patient handouts, ready to print
- More than 200 clinical flowcharts
- More than 40 supplements
- The full Dermatology Quiz archive
- The archive of clinical articles back to 2000
- The full content from sister titles *Cardiology Today*, *Endocrinology Today*, *Pain Management Today* and *Respiratory Medicine Today*.
